

Are your risk management projects bigger than your budget?

PARSAC can help.

We provide financial support that is flexible enough to meet each member's needs.

The risk management grant program is designed to assist members as they strive to improve employee safety and prevent general liability losses through the purchase of training, equipment, or services.

We believe each member can lower their net costs through the proactive management of risks in the community and the workplace. Reducing claims costs means more money is available to use in other important areas.

Grants are awarded based on their potential impact on the member's risk management objectives.

Grant Program
Risk Management & Safety

1525 Response Road, Suite 1
Sacramento, CA 95815
800-400-2642

Employee training has been proven to increase productivity and morale.

On-site training is a valuable asset to any entity. Grant funds can be used to bring various types of training programs directly to your employees. Ideas include:

- Job Skills & OSHA Safety
- Certifications & Designations
- Risk Management Conferences
- Leadership & Soft Skills
- Defensive Driving
- Preventing Sprains & Strains
- Back Safety & Lifting Techniques
- Conducting Investigations

A healthy workforce is less prone to injury.
